Professional Summary

Aspiring **Full-Stack Developer** and Computer Science student with a 8.26 CGPA. Proficient in **MERN Stack** (MongoDB, Express, React, Node.js) and Java. Demonstrated experience in building real-time scalable applications and implementing secure backend logic. Passionate about leveraging AI and modern web technologies to solve complex software challenges.

Technical Skills

Languages: Java, JavaScript (ES6+), HTML5, CSS3, SQL (MySQL)
Frameworks/Libraries: React.js, Node.js, Express.js, Socket.io, Multer
Databases & Cloud: MongoDB, MySQL, Firebase, Git/GitHub
Developer Tools: VS Code, Postman API, RESTful APIs, Linux Shell

Experience & Training

- **Python Development Intern** — Remote
  VaultOfCodes — *Sept 2025 – Oct 2025*
  - Engineered a **Personal Expense Tracker** utilizing file handling and structured programming to manage user data storage.
  - Developed a **Secret Code Generator** using cryptographic logic handling to ensure data security and validation.
  - Optimized legacy codebases by performing systematic debugging and code reviews, improving execution efficiency by 15%.
  - **Certification:** View Credential

- **Artificial Intelligence Summer Program** — Remote
  IBM SkillsBuild — *May 2024 – July 2024*
  - Mastered fundamentals of **Machine Learning** and AI agent workflows, focusing on decision-making logic and data patterns.
  - Applied **Prompt Engineering** to prototype AI-driven solutions, enhancing application response accuracy.
  - **Certification:** View Credential

Projects

- **VibeChat – Real-Time Chat System** | ***MERN Stack, Socket.io, Vercel***
  - Architected a full-stack chat app featuring **WebSockets** for low-latency, bidirectional communication between concurrent users.
  - Integrated **JWT Authentication** and real-time features like typing indicators and online presence status.
  - Optimized MongoDB schemas to handle high-frequency message writes and efficient chat history retrieval.

- **ShareMyFile – Secure File Transfer** | ***Node.js, Express, Multer, JavaScript***
  - Built a secure file-sharing platform allowing users to generate encrypted, unique access links for document distribution.
  - Implemented **Multer middleware** for robust server-side file handling with strict size and format validation.
  - Designed a responsive UI to facilitate seamless cross-platform file uploads and downloads.

Education

- **Roland Institute of Technology** — Berhampur, Odisha
  Bachelor of Technology in Computer Science and Engineering (CGPA: 8.26) — *2022 – 2026*

- **Odisha Adarsha Vidyalaya Sangathan** — Patrapur, Odisha
  Higher Secondary (XII: 89.8%) | Secondary (X: 82.4%) — *2020 – 2022*
